## Overview

Genesis 1–11 is the foundation of all teachings in the Bible, including the gospel. Critics often know this better than Christians do, so these unbelievers have leveled many attacks against a normal reading of these critically important chapters. Unfortunately, some Christians have joined their ranks in sincere but misguided attempts to reconcile the Bible with evolution and/or millions of years. The 29 presentations on this page are our small attempt to provide Bible teachers and seekers with ready-made tools to show that the Bible's accounts of creation, the Fall, Noah's Flood and the Tower of Babel should be read in a normal way. They total 2059 slides at present but are growing as more teachers allow their presentations to be available for download. Please use them but do not sell them. Note that the number at the end of each file indicates how many slides are in that presentation. As for Dr. Rick's views on creation, please note that he has signed the document called "Affirmations and Denials Essential to a Consistent Christian (Biblical) Worldview" here and on the OTS 77a-d handout below.

# Darwin Claimed Openness

“If it could be demonstrated that any complex organ existed which could not possibly have been formed by numerous, successive, slight modifications, then **my theory would absolutely break down.**”

Charles Darwin  
*The Origin of Species...p. 154*

The evidence doesn't show all life from a *single* source but from *many* sources

# Muslims believe in BOTH creation and evolution

# Liberal Logic 101

## Atheist...

...believes that there was once absolutely nothing, and nothing happened to nothing until the nothing magically exploded (for no reason) creating everything and everywhere, then a bunch of the exploded everything magically rearranged itself (for no reason whatsoever), into self-replicating bits which then turned into dinosaurs.

**Thinks you're silly and foolish for believing in "religion".**

(Because, his blind faith in a completely absurd and unrealistic story certainly isn't religion.)

**SHEDDING LIGHT  
ON EVOLUTION**

# CEB Course Description

1

**Genesis matters! Yet how sad that we often neglect God's eyewitness account regarding the origin of species, dinosaurs, ape-men, the age of the earth, Noah's Flood, the Big Bang and many other issues of our day. If you don't know what to believe as your foundation, you will build a shaky superstructure upon it when it gets to issues of the nature of man, sin, the gospel, and the person of Christ. This course will assure your own heart and increase your confidence to witness to others.**

# Course Objectives

1

By the end of this course the student will be able to...

- a) Explain why the literal truths of Genesis are **foundational** to Christianity (PPT#1).
- b) Show from Scripture how **Noah's Flood** was worldwide (PPT#2).
- c) Articulate the errors of Darwin's **Origin of Species** (PPT#3).
- d) Explain how **dinosaurs** fit into the young-earth view of Scripture (PPT#4).
- e) Explain some key scientific reasons for rejecting **ape-men** (PPT#5).

# Course Objectives

1

- h) Give biblical arguments to defend against **various compromise views** in the Church.
- i) Know **where to find more information** to keep growing in their understanding and defense of the truth of Genesis 1–11.
