"There is **no debate within the scientific community over whether evolution has occurred, and there is **no evidence** that evolution has **not occurred.**"**

Naturalism Defined

1. Nature or matter is all that exists.
2. Everything can, and indeed must, be explained by **time** plus **chance** plus the **laws of nature** working on matter.

Religion of Atheism

Genesis 1:11-12

11. Then God said, "Let the earth sprout vegetation: plants yielding seed, and fruit trees on the earth bearing fruit **after their kind** with seed in them"; and it was so.

12. The earth brought forth vegetation, plants yielding seed **after their kind**, and trees bearing fruit with seed in them, **after their kind**; and God saw that it was good.

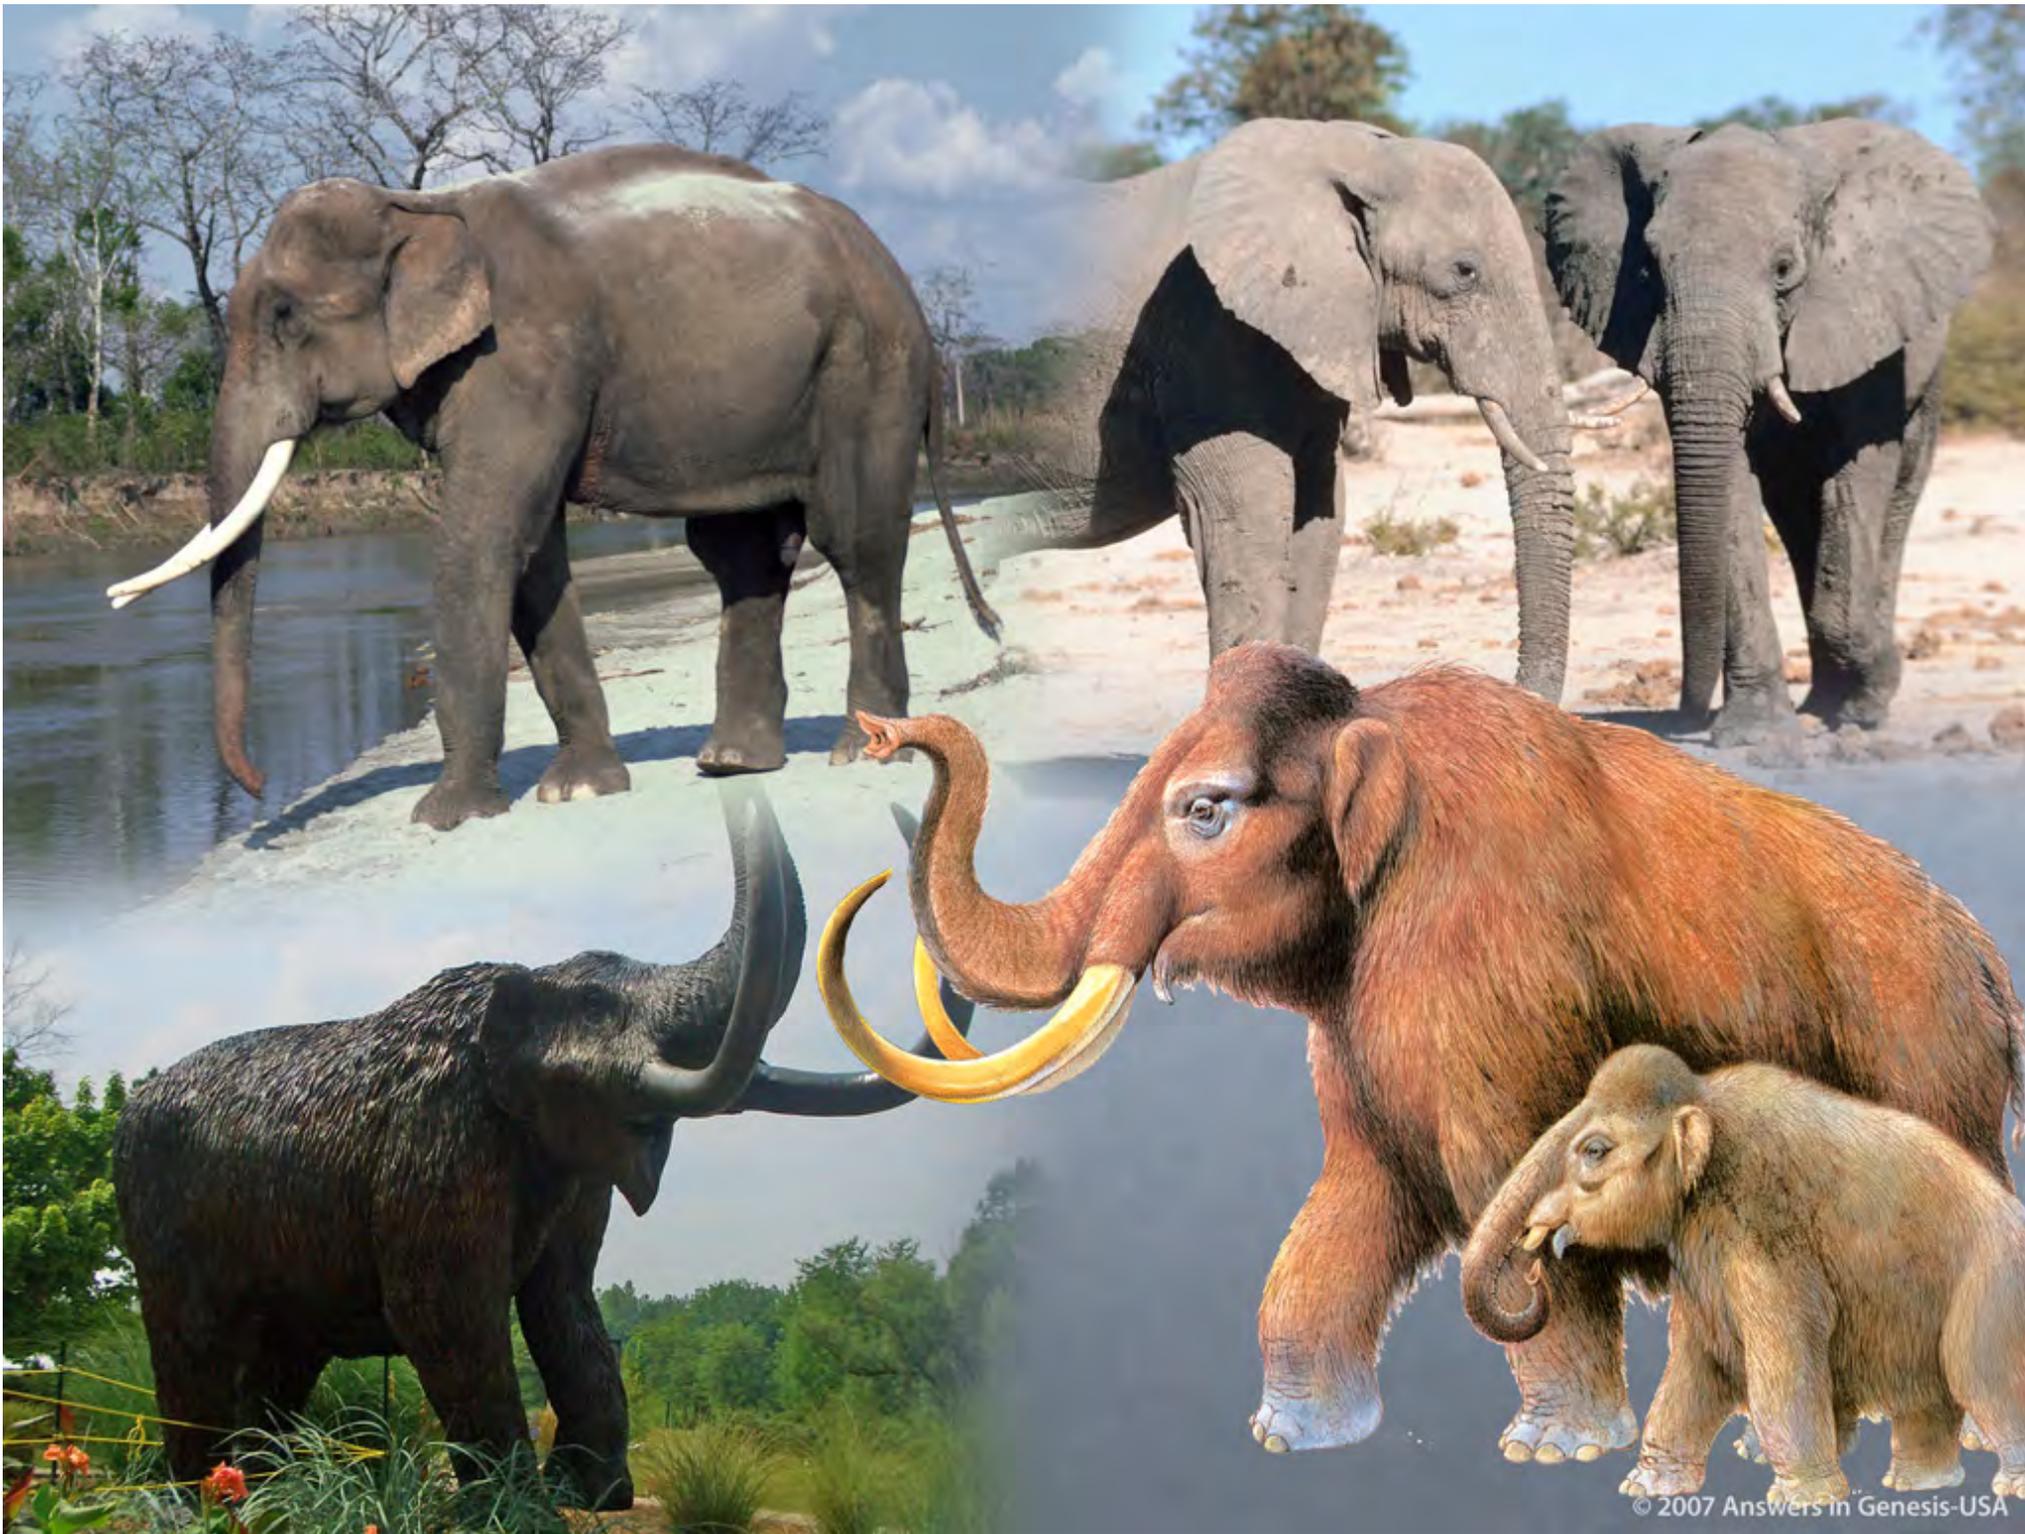

Genesis 1:21, 25

21. God created the great sea monsters and every living creature that moves, with which the waters swarmed **after their kind**, and every winged bird **after its kind**; and God saw that it was good.

25. God made the beasts of the earth **after their kind**, and the cattle **after their kind**, and everything that creeps on the ground **after its kind**; and God saw that it was good.

Genesis 6:19-20

19. And of every living thing of all flesh, you shall bring two of every *kind* into the ark, to keep them alive with you; they shall be male and female.

20. Of the birds **after their kind**, and of the animals **after their kind**, of every creeping thing of the ground **after its kind**, two of every *kind* will come to you to keep them alive.

The Key Questions

1. How did the **DNA information** for the supposed first living single-cell creature come into existence? 
2. How did the **DNA information** in the first single-cell creature get changed and augmented to produce all the different plants and animals that we see in the fossil record and living today?

The Supposed Mechanisms of Evolution

1. Natural Selection

2. Random Mutations

Natural selection is a **FACT**.

But natural selection is
NOT evolution.

And natural selection is a
CONSERVATIVE, not a
creative, process.

THE PROOF OF EVOLUTION

"The peppered moth is perhaps the most visually impacting and easily understood example of Darwinian evolution in action. It should be taught. It is, after all, **The Proof Of Evolution.**"

**Natural selection and
mutations happen but do not
prove evolution (Main Idea).**

"There is no rational basis for saying that a human being has special rights. When it comes to having a central nervous system, and the ability to feel pain, hunger, and thirst, a rat is a pig is a dog is a boy. They're all animals."

Ingrid Newkirk (founder of People for the Ethical Treatment of Animals), quoted in *Washingtonian* magazine, 1 Aug. 1986, activistcash.com.

Romans 1:18-19

“For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men who suppress the truth in unrighteousness, because that which is known about God is evident within them; for God made it evident to them.”

Romans 1:20

“For since the creation of the world His invisible attributes, **His eternal power and divine nature, have been clearly seen, being understood through what has been made, so that they are without excuse.**”
